

## **Plow Damage:**

The Town is not responsible for damaged lawns, sprinkler heads, fences steps, trees or shrubs that are located in the public way. The public street layout is generally 40' wide but can be as much as 75' wide which usually extends beyond the street pavement.

The Town will be responsible for mailboxes that are physically hit by a snow plow. However, mailboxes will not be repaired if they are in a deteriorated condition or are damaged by snow pushback. Mailboxes and posts damaged by a snowplow will be fixed and/or replaced by the Town with a standard wooden post and mailbox.

The Highway Department will keep a stock of sand-filled buckets to temporarily restore fallen mailboxes in the event the ground is frozen and enables the proper installation of new mailbox. The Highway Department will properly finish the installation of the new mailbox when the ground thaws.

The Town will maintain and tend to brush, limbs or trees that fall and lie in the public way that impend on the snow removal process. Private brush, branches or trees that fall outside of the public way during storms are the responsibility of that property owner.

Residents are urged to place reflective stakes along the edge of lawns and the corners of driveways and walkways.

Plow vehicles while employed by the Town cannot be hired or requested to clear snow from private driveways or walkways.
